Process approach

We will manage our activities and associated resources as a series of planned processes to produce the right product, at the right time with minimum wastage, while seeking to maximise efficiency. Our individual processes will be structured into a documented Quality Management System which meets the requirements for BS EN 9001:2015 that are listed within the scope of our certification.

Improvement

We are committed to the continuous improvement of the products and services that we provide and to the effectiveness of our Quality Management System. We will set clear quality objectives and monitor our progress towards their successful achievement.

Evidence based decision making

We will measure our performance in key activities and use the data collected to make informed and effective decisions on how to improve our processes.

Relationship management

An organisation and its clients, suppliers and collaborative business partners are interdependent. We will seek to develop mutually beneficial relationships to improve Quality leading to greater reliability, enhance services and increase efficiency.
