REGO-FIX Taper Cleaning Device

Validity 01.09.2025 – 30.11.2025

ACCURATE

For best CNC Machining results, clean toolholders are mandatory. Get precision, longer tool life and avoid damages at your machine spindle with regular cleaning of the holder interfaces.

STANDARDIZED

All spindle interfaces (HSK, SK, BT, CAT, CAPTO) can be cleaned effortlessly and fast. The taper cleaner is compatible with all manufacturers and brands.

TCD – TAPER CLEANING DEVICE

The easy-to-use, solvent-free, mechanical cleaning solution for all your taper interfaces. Get best precision thanks to cleanliness.

Different taper interfaces,
independent of manufacturer

Increase productivity,
reduce waste

Environment friendly, solvent-free,
mechanical cleaning

Short cleaning time,
automated with Timer
